GLOSSARY OF TERMS IN BUDGET DOCUMENT

CONSUMER PRICE INDEX (CPI) - Statistical measure of change, over time, in the prices of goods and services in major expenditure groups--such as food, housing, apparel, transportation, and health and recreation--typically purchased by urban consumers. Essentially it measures the purchasing power of consumers' dollars by comparing what a sample "market basket" of goods and services costs today with what the same sample market basket cost at an earlier date.

CONTINGENCY - An amount of money appropriated for unforeseen expenditures. It is limited to not more than 15.0 percent of the appropriations in any fund.

COST - The estimated expenditure for a particular resource.

DEPARTMENT - An organizational device used by county management to group programs of a like nature.

DEPRECIATION - (1) Expiration in the service life of fixed assets, other than wasting assets, attributable to wear and tear, deterioration, action of the physical elements, inadequacy and obsolescence. (2) The portion of the cost of a fixed asset, other than a wasting asset, charged as an expense during a particular period. In accounting for depreciation, the cost of a fixed asset, less any salvage value, is prorated over the estimated service life of such an asset, and each period is charged with a portion of such cost. Through this process, the entire cost of the asset is ultimately charged off as an expense.

Examples are group health or life insurance payments, contributions to employee retirement, Social Security taxes, workers’ compensation payments, and unemployment insurance payments.

ENCUMBRANCES - An obligation in the form of a purchase order, contract, or other commitment which is chargeable to an appropriation and for which a part of the appropriation is reserved. In some cases reserves are carried over into succeeding fiscal years.

In this case, the governing body intends that costs (i.e., expenses, including depreciation) of providing goods or services to the general public on a continuing basis be financed or recovered primarily through user charges. (2) A fund established because the governing body has decided that periodic determination of revenues earned, expenses incurred and/or net income is appropriate for capital maintenance, public policy, management control, accountability or other purposes.

The Board must approve a Final Budget by October 2 each year. State law allows for the extension of this date.

FINANCING REQUIREMENTS - Total needs requiring financing for the fiscal year.

FUND - Independent fiscal and accounting entity with a self-balancing set of accounts. Examples are the General Fund, Special Revenue Funds, Capital Projects, Enterprise, and Internal Service Funds.

FUND BALANCE - In accounting terms, it is the net of fund assets minus fund liabilities. In simple non-accounting terms, ignoring such things as loans, designations, and reserves, and considering that what we are often after is the amount of money available at the end of the year, fund balance can be considered the beginning fund balance + actual revenues – actual expenditures.

FUND EQUITY - It is the net of accumulated revenue and expenses from previous years. Entries to this series of General Ledger (G/L) accounts are made only at year-end by the General Ledger System when the revenue and expenses of the current year are closed out into one of these G/L accounts.

FUND TYPE - Any one of seven categories into which all funds are classified in governmental accounting. The seven fund types are: general, special revenue, debt service, capital projects, enterprise, internal service, and trust and agency.

GENERAL LEDGER - A book of final entry summarizing all of the entity's financial transactions, through offsetting debit and credit amounts.

GLOSSARY OF TERMS IN BUDGET DOCUMENT

GENERAL RESERVE - A separate fund or equity restriction within a fund to provide for dry period financing.

GENERALLY ACCEPTED ACCOUNTING PRINCIPLES (GAAP) - Uniform minimum standards and guidelines for financial accounting and reporting. They govern the form and content of the financial statements of an entity. GAAP encompass the conventions, rules and procedures necessary to define accepted accounting practice at a particular time. They include not only broad guidelines of general application, but also detailed practices and procedures. GAAP provide a standard by which to measure financial presentations. The primary authoritative body on the application of GAAP to state and local governments is the GASB.

GOVERNMENTAL ACCOUNTING - The composite activity of analyzing, recording, summarizing, reporting and interpreting the financial transactions of governments.

GOVERNMENTAL ACCOUNTING STANDARDS BOARD (GASB) - The authoritative accounting and financial reporting standard-setting body for government entities.

GOVERNMENTAL FUND TYPES - Funds used to account for the acquisition, use and balances of expendable financial resources and the related current liabilities – except those accounted for in proprietary funds and fiduciary funds. In essence, these funds are accounting segregation of financial resources. The measurement focus in these fund types is on the determination of financial position and changes in financial position (sources, uses and balances of financial resources), rather than on net income determination. The statement of revenues, expenditures and changes in fund balance is the primary governmental fund type operating statement. Under current GAAP, there are four governmental fund types: general, special revenue, debt service and capital projects.

GRANT - A contribution from one governmental unit to another, usually made for a specific purpose and time period. Example: “Nutrition Programs for the Elderly” are financed by the Federal Government and administered by the County.

IMPROVEMENTS - Buildings, other structures, and other attachments or annexations to land which are intended to remain so attached or annexed, such as sidewalks, trees, drives, tunnels, drains and sewers.

INDIRECT COST - A cost necessary for the functioning of the organization as a whole, but which cannot be directly assigned to one service. Includes support services like Budget Preparation, Accounting, Payroll Preparation, Treasury Management, Legal Services, and Human Resources (Personnel). See Cost Allocation Plan for further discussion.

INTERFUND CHARGES - A transfer of costs from departments in other funds.

INTERFUND REIMBURSEMENTS - Payment received for services rendered to departments in other funds.

INTRAFUND CHARGES - A transfer of costs to the operating units within the same fund.

GLOSSARY OF TERMS IN BUDGET DOCUMENT

INTRAFUND REIMBURSEMENTS - Payment received for services rendered to other operating units within the same fund.

LAND - A fixed asset account which reflects the cost of land owned by a government.

LEGAL LEVEL OF BUDGETARY CONTROL - The level at which spending in excess of budgeted amounts would be a violation of law.

LEVEL OF BUDGETARY CONTROL - One of the three possible levels of budgetary control and authority to which organizations, programs, activities and functions may be subject. These levels of budgetary control are (a) appropriated budget, (b) legally authorized nonappropriated budget review and approval process, which is outside the appropriated budget process or (c) nonbudgeted financial activities, which are not subject to the appropriated budget and the appropriation process or to any legally authorized nonappropriated budget review and approval process, but still are relevant for sound financial management and oversight.

LIBRARY FUND - Accounts for revenues to and expenditures by the Libraries in the unincorporated areas of the County.

LOCAL TAX REVENUES (USE OF) - Discretionary, general purpose revenues received by the General Fund. The largest components of local tax revenue are property tax revenue, sales tax revenue, and motor vehicle fees collected by the State and distributed to counties in lieu of local property taxes.

LONG-TERM DEBT - Debt with a maturity of more than one year after the date of issuance.

MAINTENANCE OF EFFORT - A federal and/or state requirement that the County provide a certain level of financial support for a program from local tax revenues. The amount of support is referred to as the Maintenance of Effort (MOE) level.

MANDATED PROGRAMS - Mandated programs are those programs and services that the County is required to provide by specific state and/or federal law.

MATCH - The term "match" refers to the percentage of local discretionary county monies in the General Fund, which, by law, must be used to match a certain amount of state and/or federal funds. For example, for the majority of welfare aid payments, the County must match every \$95 state dollars they receive, with \$5 dollars from the County's General Fund.

MISSION STATEMENT - A succinct description of the scope and purpose of a county department.

MODIFIED ACCRUAL - The County's basis of accounting for governmental and expendable trust funds. The accrual basis of accounting adapted to the government fund-type measurement focus. Under it, revenues and other financial resource increments (e.g., bond issue proceeds) are recognized when they become susceptible to accrual, that is when they become both "measurable" and "available to finance expenditures of the current period." "Available" means collectible in the current period or soon enough thereafter to be used to pay liabilities of the current period. Generally, expenditures are recognized when the fund liability is incurred. All governmental funds, expendable trust funds and agency funds are accounted for using the modified accrual basis of accounting.

NET COUNTY COST - The difference, for General Fund budgets, between budgeted appropriations and departmental revenue. The dollar difference is funded by local tax revenues. The amount of the operation financed by discretionary sources, principally property taxes.

OBJECT - A major category of appropriation. Example: "Salaries and Employee Benefits" (Object 10) and "Services & Supplies" (Object 20).

Such amounts are classified separately from revenues on the governmental operating statement.

All assets, liabilities, equities, revenues, expenses and transfers relating to the government's business and quasi-business activities are accounted for through proprietary funds. The GAAP used are generally those applicable to similar businesses in the private sector and the measurement focus is on determination of net income, financial position and changes in financial position. However, where the GASB has issued pronouncements applicable to those entities and activities, they should be guided by these pronouncements.

Examples of special districts are water districts, drainage districts, flood control districts, hospital districts, fire protection districts, transit authorities, port authorities and electric power authorities.
